

CLEARPLAN 360°

1 First, we conduct candid, extensive interviews with owners, key management and other stakeholders. During these discussions, we ask tough, comprehensive questions that demand thorough answers.

4 After aligning all the parties with the business owner's objectives, SIAIK provides you with a clear, 360° strategic plan with techniques and timing that are effective.

We present this plan to your entire team and provide you with all the keys to implement the ClearPlan 360° to unlock your business wealth.

2 Next, we review the findings from our first 90° of exploration to evaluate your business beyond financial statements and assess organizational alignment. We analyze common and disparate interests of the business owners and the company's executive team.

To design the most complete and inclusive plan, we align the vision of the business owners with their key executives. **3** This is critical to generate enthusiasm within the organization and produce the best possible results.
